

include/vector/vector.h

```
graph TD; A[include/vector/vector.h] --> B[errors.h]; A --> C[lcom/lcf.h]; B --> C;
```

The diagram illustrates the include relationships between three header files. At the top is a box labeled 'include/vector/vector.h'. Two arrows originate from its bottom edge: one points diagonally down and to the right to a box labeled 'errors.h', and the other points diagonally down and to the left to a box labeled 'lcom/lcf.h'. A third arrow originates from the bottom edge of the 'errors.h' box and points diagonally down and to the left to the 'lcom/lcf.h' box. All boxes have a thin black border, and the arrows are dark blue.

errors.h
